## PROFESSIONAL EXPERIENCE:

### Wolfberg Alvarez & Partners

October 2016 – May 2020; Project Architect

Architectural production and coordination on large scale institutional and government work. Report to firm Vice President regularly on status of projects, time frames, and coordination with other disciplines. Firm is full service A/E and requires daily in-house coordination and team work to complete project(s) in an efficient manner. Regular project responsibilities includes contract deliverables (SD/DD/CD), Estimating, Specifications, Permitting Coordination, and CA services. Work includes regular interaction with governmental agencies, clients Project Managers (Heery International on Education work), multiple project stakeholders, and general public. Projects also require security/background clearance (Jessica Lunsford Act) that is valid until 2021. Scopes of projects range from architectural coordination with M/E/P system upgrades to roofing systems to complete STEM classroom design with stakeholder input. Project time lines average three to four years. Projects have an average budget of \$12 Million per facility.

### Beilinson Gomez Architects

November 2015 – September 2016; Studio Director

Directly oversee current firm projects and staff for successful management of the creative and business aspects of projects. Responsible to firm principal for project profitability and successful relationships with clients through day to day communication. Serve as a mentor and teacher to junior staff for business and design knowledge in the industry. Review employment applications and make recommendations for hiring to firm principals. Actively coordinate with firm consultants, associate staff, and firm principal for successful designs and project completion through CA. Manage permitting and CA on all supervised projects

### STA Architectural Group, Miami, FL

August 2011 – October 2015; Project Manager & Studio Director

Manage all staff tasks and scheduling via weekly director and principal meetings. Forecast hours and deliverables for architecture dept. design fee proposals. Generate design proposals and sketches for production as architecture department projects. Manage client relationships and solicit new work for the firm. Maintain active role as architectural project manager for high profile projects while performing the duties of Studio Director.

Manage projects ranging from Hospitality to Institutional occupancies. Coordinate M/E/P, Structural, and Civil Engineers through-out construction document production and project construction. Perform Construction Administration and Value Engineering on high value, time sensitive projects.
